

Services of STC

Our transfer center activities are focused on your individual requirements. Together with you we will hold a comprehensive discussion regarding the goals you wish to achieve. From these considerations we will develop an appropriate conception. We will fairly determine operational procedures and the range of services and coordinate these issues with you before a project starts. This way it will be made clear for you how we achieve the desired results.

Our range of services goes far beyond ordinary consultations. We don't merely tell you what to do. We are more likely to take an active part in joint work on your project – purposefully and efficiently.

Due to the fact that the needs of German and foreign companies differ, we will demonstrate our offer of services in two directions.

Our offer for German companies

Our offer for foreign companies

Countries of primary concern

Belarus

Bulgaria

Kazakhstan

Moldova

Romania

Russia

Slovakia

Slovenia

Turkey

Ukraine
