

Steinbeis-Transferzentrum OST-WEST-Kooperationen

Increasing the adaptability and competitiveness of Romanian industry employees through continuous training in ITC, new technology transfer, environmental protection and pollution control

Svasta ICG S.R.L.

SVASTA ICG is a consulting and management training company with an attendance of over 17 years on the Romanian market. With roots in Transylvania, the company worked mainly for clients in German and Scandinavian area, but also for many Romanian customers. In time, the company developed a training capacity, based on its own skills. Business philosophy: our trainers are practitioners in their field of training and the content of the courses is adapted to the latest international methods and contain practical elements specific to the Romanian market. In the last 6 years, the company has been an active player in the environmental field, having the possibility to collaborate with leading German companies in this field, and organized several special events dedicated to environmental protection and renewable energies. On 1st of October, 2010, the merger with ICG Austria consulting group was completed and the company became SVASTA ICG. Thus, to the company's competencies related to project management, public procurements, controlling and financial management will be added the group's competencies in the following areas: development and organizational transformation, change management, restructuring and optimizing internal processes – see more on: www.svasta-icg.ro

Ensign Management Consulting

Ensign Management Consulting was founded in 2000 and currently is the local leader of the Romanian management consulting market, in terms of revenues, number of consultants and capabilities. Ensign provides its customers with business transformation solutions that are built on multidisciplinary skills: strategy, operations, finance, human resources and technology. Our integrated solutions are based on complementary skills (management, finance, human resources, IT, acquisitions and logistics, marketing and sales) and are designed to answer the most important challenges faced by companies. Over 500 people from national and multinational companies have benefited from our tailored training modules and sessions to enhance knowledge in ITC, based on a training needs analysis – see more on: www.ensight.ro
