

Analysis of scientific and research potential of Uzbekistan, Azerbaijan and Moldova

The Central Asian EU strategy has for the first time determined major political directions of enhanced business activities of Europe in Central Asia. Scientific and technological cooperation is of primary importance here. STC's aim is to analyze scientific and research potential of the 3 countries to develop principal areas of cooperation.

Promotion of businesses in Russia – opportunities for the German industry

The EU has set a task to develop important program on export promotion in the Russian small and medium-sized businesses. Russia has enough business opportunities. According to Steinbeis experts, offers for cooperation are quite serious and realistic. EU Consultation Project has been closed. Contacting with the Russian small and medium-sized businesses is in progress.

Promotion of economic development by transfer of technologies in the Republic of Bashkortostan

The Ministry of Industry, Investment and Innovation Policy of the Republic of Bashkortostan has been consulted by the Steinbeis Transfer Center of East-West Cooperations under developing of the prospective strategy on strengthening innovation capacity of local industry. [read more \(in German\)](#)

Research project on development of the technology transfer in Kazakhstan

Benchmarking: We have analyzed the structure of the exchange of technologies in Finland, Ireland, Germany, Taiwan, South Korea, Japan and USA. The results are used in Kazakhstan to creating the transfer system.

Technology Transfer and Quality Management – managing EU promotion program for Romania

STC Director Jürgen Raizner has taken charge of the Technical Assistance for 2 years under the Phare Program "Technology Transfer and Quality Management" (Ministry of Technology and Research, Romania).

Vocational training in Ukraine

Under professional and organizational supervision of our Transfer Center a model center of new methods for vocational training has been created in Ukraine.

Business-to-Business Meetings as an important supplement to the market development

We have been authorized to arrange and maintain businessmen's meetings many times. We have accompanied German businessmen to Belarus (Minsk) and Romania (Bucharest, Calarasi, Tulcea).
