

Steinbeis-Transferzentrum OST-WEST-Kooperationen

Steinbeis Romania

Steinbeis Transfer Center East-West Joint-Ventures has been operating in Romania since 1996. In order to improve efficiency of project work we established a branch in Bucharest on April 01, 2005. The Romanian limited liability company supports activities of our Transfer Center. In addition, possibilities of rendering services to Romanian enterprises have been increased.

Jürgen Raizner, the head of Steinbeis Transfer Center EAST-WEST Joint Ventures, is at the same time the director of Steinbeis Transfer Management.

Availability of the branch in Romania provides useful advantages: Romanian entrepreneurs can address us right there, it is easier for them to respond to our requests and suggestions; collection of the required information in the course of communication with Romanian firms will be more effective; for German firms our office in Bucharest will operate as a representative office; we can transfer our experience and knowledge of business doing particularities in Romania (accounting, business tax assessment, effecting payments etc.) to German investors; and many other things.

Steinbeis Transfer Management S.R.L.
