

TenRO – Search for appropriate tenders

Reasoning from the services that you offer, regular search for tenders for Romanian projects you are interested in is being carried out. From many tenders being held you get well-timed information about the projects that comply with your offer. Additionally, you are granted access to the tender data.

TenROplus - Support in holding of a tender

Participation in a tendering in Romania requires special experience. However, the knowledge of the Romanian language is not a problem. It is necessary to observe formalities, put contacts into service and understand the origins of the project.

TenROman - Project management in Romania

The management of projects in Romania requires special attention. It is especially important for the federally funded projects to comply with administrative regulations and process complicated documents. Concentrate upon the work on the project. We will take care of the management and clarify all the organizational issues at the site.
