

Important sign of Bulgaria

The involvement of Bulgaria in the Danube Strategy is already remarkable. A further intensification is announced. The Bulgarian president Rossen Plevneliev highlighted the interest of Bulgaria in the development and realization of large projects in a one-to-one conversation with SDC director Jürgen Raizner and project manager Rumjana Hilpert. He conveyed that Bulgaria sees the European intentions as a real strategy development instead of a collection of many individual projects.

The conversation took place after the 'Roundtable Republic Bulgaria' in Munich. (18.10.12, IHK of Munich and Upper Bavaria)
