

Construction of the Danube-transfer centers

"The EU Strategy for the Danube Region offers for Baden-Württemberg the unique opportunity to work together, to promote economic growth, innovation and cooperation," emphasized Peter Friedrich, Minister for Federal, European and International Affairs, on Tuesday (27/11/2012) in Regensburg. In the first Annual Forum of the EU Danube Strategy of the European Commission, Prof. Dr. Norbert Gronau signed a cooperation agreement with five universities from Romania, Slovakia and Serbia. Content of the agreement is to develop a common strategy to strengthen the transnational technology transfer in the Danube region. The pilot project in Baden-Württemberg is to run it by the Steinbeis-Europa-Zentrum and the Steinbeis Danube Centre together. Participating Universities:

Romania (Technical University of Cluj-Napoca, University "Babes-Bolyai" Cluj-Napoca)

Slovakia (Technical University, Bratislava, Slovak University of Agriculture, Nitra)

Serbia (Novi Sad University).

Feierliche Unterzeichnung der
Kooperationsvereinbarung
