Barriers to cooperation in Research and Innovation in the Danube Region

Consortium of Danube-INCO.NET aims indeed to better understand barriers and obstacles in relation to international cooperation in Research, Technological Development and Innovation (RTDI), as well as pitfalls including socio-cultural aspects so as to finally propose recommendations for policy making. The survey is anonymous, the answers are mostly optional and filling it completely will last maximum 15 minutes.

Please support the Danube Strategy by answering the survey here.

Steinbeis Danube Center is working in the project on societal challenges energy and bio-economy. [more](#)
